After you received a violation of my password recovery terms and conditions, my account was suspended without notice. I haven't even had a chance. Opportunity, to fully adjust my bill. Just a few days to view the app. I called the customer service number without a solution (aimed at filling out a technical support form). I filled out the technical support form, there is no solution (never came back to me). In all the fairness, the site looks well collected and is full of information. This service seems to be a huge cleaning for wholesalers and investors to meet and do business. However, if simple things like password recovery (from verified emails) can stop an account, business owners will find it difficult to use this service with any reliability, especially if talking to a living person doesn't work.
